

Texas Quarterly Census of Employment & Wages

FOURTH QUARTER 2024

Quarterly Census of Employment and Wages by Industry and County

Description of the Data

This publication contains employment, payroll, and average weekly wage data by county for the specified quarter. These data were compiled from quarterly employment and wage reports submitted by employers subject to the Texas Unemployment Compensation Act (TUCA) and for civilian workers covered by the program of Unemployment Compensation for Federal Employees (UCFE). Quarterly average employment data have been tabulated by industry according to the North American Industry Classification System (NAICS) manual (see Industry Classification below) at the statewide and county levels. Payroll data represent the total wages paid by establishments during the quarter. Total wages are provided for each county and by industry for the state. Average weekly wage data are computed from employment and total wages reported by all establishments as well as just those establishments subject to the Texas Unemployment Compensation Act. Average weekly wage data are not to be confused with “prevailing” wage rates in various industries.

Industry Classification

Since the release of first quarter 2001 data, industry information has been provided under the North American Industry Classification System (NAICS). Beginning with first quarter 2022 data, the Texas Workforce Commission (TWC) has released Quarterly Census of Employment and Wages (QCEW) data using the NAICS 2022 revision. NAICS revisions are implemented every five years and are intended to keep the NAICS structure aligned with new, emerging, or changing activities and technologies. For the 2022 revision, Canada, Mexico, and the United States focused on new and emerging industries, as well as the continued usefulness of employing the mode of delivery (online versus in store/print) as an industry delineation criterion in the Wholesale Trade, Retail Trade, and Information sectors. Revisions included title change, content change, or new codes for 2022 NAICS.

As there are no plans for historical reconstruction of the data series, a series break was declared to have occurred. This negated the ability for the data for affected industries to be analyzed as continuous time series. For more information on NAICS 2022 code changes, please visit <https://www.census.gov/naics>.

Definition of covered employment, wages, and average weekly wage

Covered employment is the number of workers employed by employers subject to the Texas Unemployment Compensation Act during the pay period which included the 12th day of the month. Excluded from coverage are employment covered by the Railroad Retirement Act, self-employed, and unpaid family members.

The payroll data (total wages) used in this publication includes all wages and salaries paid to covered employees by their employers, including bonuses, commissions, and cash values or remuneration received in any medium other than cash.

The average weekly wage is the numeric calculation of total wages for the county divided by the number of employees in the county, divided by the number 13 (the number of weeks in a quarter). This figure is listed in Table 3 for those establishments that are covered by the Texas Unemployment Compensation Act, and also for all employers (those covered plus Federal Government civilian employment).

NAICS Industry Structure

The NAICS industry hierarchy classifies data to the six-digit level. The first level consists of the Goods Producing and Service Providing industries. Below this is the Super Sector level. The third layer is the Sector level. Statewide data are published at both the Super Sector and Sector levels. Data for the 254 Texas counties are published at the Super Sector level only.

When no employment was reported in a county for an industry group, a "0" is shown. If disclosure of employment in a county for an industry group does not meet the minimum requirement to ensure anonymity of the employer(s), a dash (---) is shown. The employment for that industry is included in (L) - Unclassified so as not to reveal information about individual establishments.
